

Single column electric floor lift for monitors up to 86"

This fixed on-floor and wall single-column electric lift stand is a perfect solution for 55"-86" displays. It's suitable with screens up to VESA 800x600mm and up to 100kg. Equipped with an easy mount, based on "pull and release" brackets and a wired remote, it is a perfect solution for displays placed in classrooms or conference rooms.

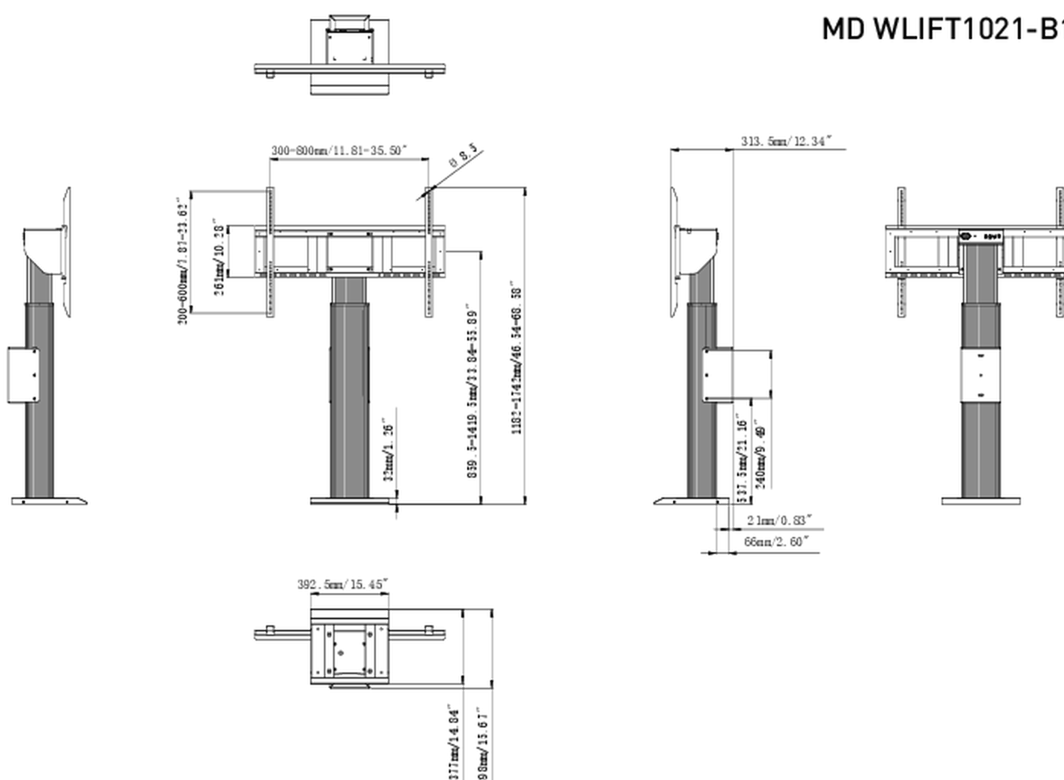

This column is a perfect match for the iiyama TE02, TE04 and TE12 SERIES iLFDs allowing users to control the height from the screen itself. With the option to save 2 height level pre-sets, different users can quickly adjust the screen position to their needs. The 4-inch muting castor omni directional wheels make it easy and save to move the car around.

*Attention: This electric floor lift is not recommended for 75" & 86" displays in large (class)rooms. Particularly in large spaces such as lecture halls with elevated seats or where many people sit in a row, the bottom of the screen may not be sufficiently visible to everyone.
